International 2024 Cyberspace Congress: CyberDI and CyberLife Beijing China

Overview

The International 2024 Cyberspace Congress will be held in Beijing, China from June 10-12, 2024. The congress will bring together experts from around the world to discuss the latest developments in cyberspace, including artificial intelligence, blockchain, and quantum computing.

The congress will be divided into two tracks: CyberDI and CyberLife. The CyberDI track will focus on the technical aspects of cyberspace, such as the development of new technologies and the security of cyberspace. The CyberLife track will focus on the social and ethical implications of cyberspace, such as the impact of artificial intelligence on society and the role of cyberspace in promoting human rights.
