One of the best ways to get started with affiliate marketing is to join Amazon Associates. Amazon Associates is a free program that allows you

to earn a commission on sales of products that you refer from your website or blog.

In this step-by-step video guide, I will show you how to create an Amazon Associates account, find products to promote, and drive traffic to your affiliate links.

Creating an Amazon Associates Account

The first step to becoming an Amazon affiliate is to create an Amazon Associates account. To do this, visit the Amazon Associates website and click on the "Join Now for Free" button.

You will be asked to provide some basic information about yourself, including your name, address, and email address. You will also need to create a website or blog where you will promote Amazon products.

Once you have created your Amazon Associates account, you will be given a unique affiliate ID. This ID is what you will use to track the sales that you generate through your affiliate links.

Finding Products to Promote

Once you have created your Amazon Associates account, you need to find products to promote. You can find products to promote in a variety of ways, including:

- Browsing the Amazon website
- Using the Amazon Associates Product Advertising API
- Joining an Amazon Associates niche program

When choosing products to promote, it is important to keep your audience in mind. You want to choose products that are relevant to the interests of your audience and that you think they will be interested in buying.

Driving Traffic to Your Affiliate Links

Once you have found products to promote, you need to drive traffic to your affiliate links. You can drive traffic to your affiliate links in a variety of ways, including:

- Writing blog posts about the products
- Creating videos about the products
- Posting about the products on social media
- Running ads to promote the products

The more traffic you can drive to your affiliate links, the more sales you will generate. It is important to experiment with different traffic generation methods to find what works best for you.

Making an Extra \$500 Per Month

How much money you can make as an Amazon affiliate depends on a number of factors, including the niche you choose, the products you promote, and the amount of traffic you drive to your affiliate links.

However, it is possible to make an extra \$500 per month as a new affiliate marketer with Amazon Associates. By following the steps outlined in this guide, you can get started with affiliate marketing and start earning some extra money.
