Australia is home to an incredibly diverse range of bird species, with over 800 species recorded across the country. However, many of these species are threatened by habitat loss, climate change, and other human activities. The Action Plan for Australian Birds 2024 was developed to address these threats and ensure the conservation of our precious birdlife.

## Goals and Objectives

The Action Plan for Australian Birds 2024 has four main goals:

1. To improve the conservation status of all threatened bird species in Australia.
2. To protect and manage important bird habitats.
3. To reduce the impact of human activities on birds.
4. To increase community awareness and engagement in bird conservation.

To achieve these goals, the Action Plan sets out a number of objectives, including:

- \* Identifying and monitoring threatened bird species.
- \* Protecting and restoring important bird habitats.
- \* Reducing the impact of invasive species on birds.
- \* Mitigating the effects of climate change on birds.
- \* Raising awareness of bird conservation issues.
- \* Promoting community involvement in bird conservation.

## **Key Strategies**

The Action Plan for Australian Birds 2024 outlines a comprehensive range of strategies to achieve its goals and objectives. These strategies include:

- \* Developing and implementing conservation plans for threatened bird species.
- \* Establishing and managing protected areas for important bird habitats.
- \* Promoting sustainable land management practices to reduce the impact of human activities on birds.
- \* Conducting research to improve our understanding of birds and their habitats.
- \* Raising awareness of bird conservation issues through education and outreach programs.

## **Implementation and Monitoring**

The Action Plan for Australian Birds 2024 is a collaborative effort between government, industry, and community groups. It is being implemented through a range of programs and initiatives, including:

- \* The Threatened Species Recovery Hub.
- \* The National Landcare Program.
- \* The BirdLife Australia BirdLife Partnership Program.

The progress of the Action Plan is being monitored through a number of indicators, including:

\* The number of threatened bird species that improve in conservation status. \* The area of important bird habitats that are protected and managed. \* The level of community awareness and engagement in bird conservation.

The Action Plan for Australian Birds 2024 is a vital tool for bird conservation in Australia. It provides a comprehensive framework for action and sets out a clear path towards achieving our goals for the future of our birdlife.

We all have a role to play in conserving Australia's birds. By supporting the Action Plan for Australian Birds 2024, we can help to ensure that our children and grandchildren will be able to enjoy the beauty and diversity of our birdlife for generations to come.
