Very Short s (VSIs) are a series of concise, accessible, and engaging s to a wide range of subjects. They are published by Oxford University Press and are written by leading experts in their fields.

VSIs are typically around 100 pages long and are written in a clear and engaging style. They are designed to provide readers with a concise overview of a subject, without overwhelming them with too much detail.

The VSI series was founded in 1995 by the late Professor John Sutherland, who was the editor of the Oxford Dictionary of National Biography. Sutherland believed that there was a need for a series of concise and accessible s to a wide range of subjects, that would be written by leading experts in their fields.

The VSI series has been a huge success, with over 600 titles published to date. The books have been translated into over 30 languages and have sold over 10 million copies worldwide.

Structure of a VSI

VSI are typically divided into the following sections:

- **Introduction**: This section provides a brief overview of the subject and introduces the author.
- **Body**: This section is the main part of the book and provides a concise overview of the subject. It is typically divided into several chapters, each of which covers a different aspect of the subject.
- **Conclusion**: This section summarizes the main points of the book and provides some from the author.

Content of a VSI

VSI cover a wide range of subjects, including:

- **Arts**: Art, architecture, cinema, dance, literature, music, photography, theater
- **History**: Ancient history, medieval history, modern history, world history
